

**Tesla Exploration International Ltd**

November 22nd, 2013

To Whom It May Concern:

Please except this letter as confirmation that GAMS has done an excellent job in handling our import and export requirements for the past year. Specifically Ahmad Warsame the head of GAMS has worked closely with us and local government officials to ensure our operations were unaffected by any delays in the importing or exporting process.

Ahmad has introduced us to these local officials and has taken a genuine interest to see that our company succeeds in Somaliland. His business has the local contacts that are necessary for your operation having success also. GAMS is well equipped with both knowledge and facilities to receive all imports, process the documentation and store all inventory till it can be adequately received at your facility.

As part or Tesla's needs we relied on GAMS to:

- Process import and export documentation in a timely manner
- Consult with Local Shipping authorities
- Storage of our equipment once customs clearance was obtained
- Access us into the Port at Berbera
- Arrange Reliable Transportation from all parts of Somaliland to its desired location.
- Introduction to Local Government officials

We look forward to working closely with Ahmad Warsame and GAMS in the future and would highly recommend his company to any other company considering using his service.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Darryl McKay", is written over a light blue circular stamp.

Darryl McKay
